

Dear Students,

We are looking forward to welcoming you to attend Oxford International Study Abroad Programme at St Antony's College in Winter 2020.

You will have the opportunity to attend the inspiring, cutting-edge and disciplinary course provided by the combination of professors, senior researchers and lectures from different department of Oxford University. In your spare time, you could also explore more cultural and art part of Oxford and other parts of UK.

I look forward to your attending to our courses in winter 2020.

Sincerely'

Taha Yasseri

OXFORD INTERNATIONAL
STUDY ABROAD PROGRAMME

AT ST ANTONY'S COLLEGE
UNIVERSITY OF OXFORD

Oxford Study Abroad Programme
Humanities and Social Sciences
Science and Innovation
Winter 2020

01 | Oxford International Study Abroad Programme

Oxford International Study Abroad Programmes will be held at Oxford all around the year. Two academic programmes—Humanities & Social Sciences Course and Science & Innovation Course—are well organized for students from universities all over the world. The programmes allow the students to benefit from knowledge of Oxford University, experience Oxford city and world-famous institutions in UK. Oxford Colleges will supply catering, accommodation and available academic teaching to guarantee the students enjoy a real Oxford College experience. The courses are organized in the forms of lectures, seminars as well as specific subject courses.

Academic programmes are designed to provide talented and advanced university students and professionals aspiring to pursue high-level research or management careers with the exposure to the key areas involved in exploring and discovering the new trend of the world. These areas include governance and policy; design and planning; technology and innovation; economics, finance and commerce; and socio and cultural development. Aiming to connect top research and best practice, the courses engage participants in interactive and participatory lectures and seminars taught by leading experts at the University of Oxford as well as business and industrial sectors. It provides a global and comparative perspective on major aspects of contemporary and near future world development with case studies around the world, in order to explore innovative and sustainable

practices that balance economic, environmental and social aspects of world development.

The programmes also include visits to UK institutions such as Mini Cooper Plant, Houses of Parliament, BBC, Cadbury World, Denbies Wine Estate and etc., through which participants will gain first-hand experience of UK's political, financial, business, and cultural districts, and interact with experts who have made their eminent achievement in their academic fields. As an integral part of the course, participants are required to complete a relevant group research project under the guidance of outstanding postgraduate students and experienced researchers at Oxford and leading professionals in their interested academic fields. To complete this project, participants need to do pre-course reading assignments, and apply and integrate what they have learned each day from lectures, seminars, project workshops, and site visits. Besides, Oxford students will be selected to work as team leaders for the participants each day to give enough advice and guidance.

At the end of the course, each research project group will develop and deliver a power-point presentation, which will be evaluated by Oxford examiners in comparison with presentations given by other groups.

Each applicant will receive an official Invitation Letter after they submit their application form from Oxford Colleges, which is used to apply for short-term student visas. At the Gala dinner, each of them who attend 80% or above of classes will be issued with an Attendance Certificate with the signature of world-class speakers from different departments of Oxford University as well as their final grade.

02 | St Antony's College, University of Oxford

St Antony's College is a world-renowned centre for research and teaching, exploring both global and regional issues. The College provides an interdisciplinary environment to study a range of subjects from development to international relations. St Antony's houses seven research centres focused on Africa, Asia, Europe, Japan, Latin America, the Middle East, Russia and Eurasia as well as programmes on North America, Burma, Morocco, Sudan and Taiwan. Across its regional centres and programmes, St Antony's College uses insights and methods from both social sciences and the humanities to deepen our understanding of key parts of the world.

In addition to the activities held at St Antony's, some subject courses will be based at other Oxford University colleges such as St Anne's and St Cross College, University of Oxford, offering our participating students a diverse experience of different Oxford Colleges throughout the programme.

3rd September 2019

Letter of Welcome

Dear students,

St Antony's College is the most cosmopolitan of the seven graduate colleges of the University of Oxford, specialising in international relations, economics, politics and the history of particular parts of the world.

We are looking forward to welcoming you to attend Oxford International Study Abroad Programme at St Antony's College in Winter 2020.

Wish you a pleasant time in Oxford.

Yours sincerely,

Han Kimmott

Conference & Accommodations Co-ordinator

St Antony's College

St Antony's College is a registered charity (number 1141793)

03 | Accommodation And Facilities

The University of Oxford consists of 38 colleges - a diverse community studying a diverse selection of subjects. Oxford colleges are not only responsible for the teaching of undergraduate and postgraduate students, but also provide dormitory accommodation. Most colleges are located in the city centre, with accommodation usually found on the main campus, or a short walk away, making it easy to travel. Each college has its own living and learning facilities such as a libraries, public computer rooms, classrooms, dining halls, bars, gym and laundry rooms, as well as a Junior common room in which students may relax. Many social activities at Oxford University are conducted on a collegiate basis. The halls of residence not only allow students to make many friends in college, but also help them to understand and integrate into UK life and culture - with roommates from different backgrounds mutually enriching their shared university experience.

• Food

Our students will primarily dine in the college dinning hall. The college will typically offer a buffet service with a wide range of options. The only exception to this is the closing dinner of the programme, where students will enjoy a customised set menu. If students have any special dietary requirements (e.g. vegetarian, gluten-free etc.), they must complete and submit a dietary information form in advance.

• Bedrooms

Our Programme offers the opportunity to stay in one of the colleges comprising the University of Oxford each summer. During your stay, you will experience the authentic day to day life of Oxford students, including breakfast in the college dining halls.

During term time, all accommodation will be arranged in local hotels and local homestay families (limited in number), because the college all accommodation has been occupied by Oxford University students.

Note: the programme schedule may be slightly adjusted due to the local situation in Oxford.

07 | Previous Speakers

Professor Stephen Tuck
Professor of Modern History
Director of the Oxford Research Centre in the Humanities (TORCH)
Pembroke College, University of Oxford
His research interests include modern race equality struggles in Britain and America, the relationship between religion and racism, and the writing of national history. He is also currently director of the Oxford Research Centre in the Humanities (TORCH), and co-lead an interdisciplinary network called "Race and Resistance across borders in the long twentieth century," which is based at TORCH. My main book project is a study of the effect of white supremacy on religious faith.

Professor Thomas Hale
Associate Professor in Public Policy (Global Public Policy), Blavatnik School of Government, University of Oxford
St Antony's College
Dr Thomas Hale's research explores how we can manage transnational problems effectively and fairly. He seeks to explain how political institutions evolve—or not—to face the challenges raised by globalization and interdependence, with a particular emphasis on environmental and economic issues. He holds a PhD in Politics from Princeton University, a masters degree in Global Politics from the London School of Economics, and an AB in public policy from Princeton's Woodrow Wilson School. A US national, Hale has studied and worked in Argentina, China, and Europe. His books include *Between Interests and Law: The Politics of Transnational Commercial Disputes* (Cambridge 2015), *Transnational Climate Change Governance* (Cambridge 2014), and *Gridlock: Why Global Cooperation Is Failing when We Need It Most* (Polity 2013).

Professor David Howard
Associate Professor in Sustainable Urban Development; Fellow of Kellogg College, University of Oxford
David's principal research concentrates on the contemporary societies of the Caribbean and Latin America, with a specific focus on urban geography and social sustainability. His interests lie at the interface between social and urban geography, and postcolonial and development studies. Recent research projects have concentrated on the urban environment, development and social change in the Dominican Republic, Jamaica, and Barbuda. He directs the MSc in Sustainable Urban Development at the Continuing Professional Development Centre, and is a member of the Management Committee of the Latin

Professor Nihan Akyelken
Associate Professor in Sustainable Urban Development
Department for Continuing Education, Oxford University
Nihan joined the University of Oxford as a Research Fellow at the Transport Studies Unit in the School of Geography and the Environment in October 2008. In February 2015, she started working as a Departmental Lecturer on the Sustainable Urban Development programme and in January 2017 was appointed as Associate Professor in Sustainable Urban Development. Previously, she is the winner of the 2015 OECD-ITF Young Researcher of the Year Award and was named as a World Social Science Fellow in Sustainable Urbanisation by the International Social Science Council in 2014.

Professor Niki Trigoni
Professor of Computing Science, University of Oxford
Governing Body Fellow, Kellogg College
Niki Trigoni is a Professor at the Oxford University Department of Computer Science and a fellow of Kellogg College. She obtained her DPhil at the University of Cambridge (2001), became a postdoctoral researcher at Cornell University (2002-2004), and a Lecturer at Birkbeck College (2004-2007). At Oxford, she is currently Director of the EPSRC Centre for Doctoral Training on Autonomous Intelligent Machines and Systems, a program that combines machine learning, robotics, sensor systems and verification/control. She also leads the Cyber Physical Systems Group, which is focusing on intelligent and autonomous sensor systems with applications in positioning, healthcare, environmental monitoring and smart cities. The group's research ranges from novel sensor modalities and low level signal processing to high level inference and learning.

Dr. Taha Yasseri
Senior Research Fellow, Internet Institute
Dr. Taha Yasseri has interests in analysis of large-scale transactional data to understand human dynamics, government-society interactions, mass collaboration, information and opinion dynamics.
Taha Yasseri is a Senior Research Fellow in Computational Social Science at the OII, a Turing Fellow at the Alan Turing Institute for Data Science, and a Research Fellow in Humanities and Social Sciences at Wolfson College, University of Oxford.

Professor Nick Hawes
Nick is an Associate Professor in Engineering Science (Robotics) and a Tutorial Fellow in Engineering Science at Pembroke College. He joined the Oxford Robotics Institute in September 2017.
Nick's research interests lie in the application of Artificial Intelligence (AI) techniques to create intelligent, autonomous robots that can work with or for humans. He has worked on long-term autonomy for mobile robots; mixed initiative or shared autonomy between humans and robots; information-processing architectures for intelligent systems; the integration of AI planning techniques into a variety of robot systems; and the use of qualitative semantic and spatial representations to enable robots to reason about the possibilities for action in their worlds.

Professor Vlad Mykhnenko
Associate Professor of Sustainable Urban Development, University of Oxford
Professor Vlad Mykhnenko is Principal Investigator of the project Smart Shrinkage Solutions – Fostering Resilient Cities in Inner Peripheries of Europe (3S RECIPE).
Vlad is Associate Professor of Sustainable Urban Development at the Department of Continuing Education. His work specialises in, among other areas, spatial imbalances in urban economies, territorial growth and post-communist economies.

Professor Andrew Goudie
Emeritus Professor in Geography
Member of the Landscape Dynamics research cluster
Professor Andrew Goudie was Professor of Geography and a Fellow of Hertford College from 1984 to 2003. A distinguished physical geographer, he was awarded the DSc by the University in 2002, a Royal Medal from the Royal Geographical Society in 1991, the Prize of the Royal Belgian Academy for 2002. He was President of the British Institute in Eastern Africa, 2011-2016, and from September 2005-2009 he was President of the International Association of Geomorphologists. He has recently been Director of the China Centre, Oxford (2011-2013), President of the Geographical Association, President of Section E of the British Association, and Chairman of the British Geomorphological Research Group.

Professor David Wallom
Associate Professor & Associate Director – Innovation, Oxford E-Research Center, University of Oxford
Prof David Wallom is Associate Professor and Associate Director – Innovation of the Oxford e-Research Centre, where he leads two separate research groups Energy and Environmental ICT and Advanced e-infrastructure & Cloud Computing. He has led over 50 research projects in areas such as Cloud utilisation, Smart Energy Grids, Research data management, Green IT, ICT security and institutional repositories. He is a member of the GCHQ recognized Academic Centre of Excellence in Cyber Security and the UK Space Agency Ground segment Advisory Group. He is the academic Board Member of the HEFCE Institute for Environmental Analytics, Chair of the Scientific Advisory Board for the Norwegian Information for Action e-Science Centre and a member of the SAB for the NEGI Tools for Investigating Climate Change at High Northern Latitudes (eSTICC) & Ensemble-based Methods for Environmental Monitoring and Prediction (EmblA) centres. He is also Co-Editor in Chief of the Elsevier journal SoftwareX.

Dr Jonathan Bright
Senior Research Fellow, Oxford Internet Institute, University of Oxford
Jonathan Bright is a Senior Research Fellow at the Oxford Internet Institute who specialises in computational approaches to the social and political sciences. He has two major research interests: exploring the ways in which new digital technologies are changing political participation; and investigating how new forms of data can enable local and national governments to make better decisions.

Dr. Marc Szezan
Lecturer in International Business
Academic Director, Oxford Diploma in Global Business
Said Business School
University of Oxford
Dr. Marc Szezan is a Lecturer in International Business and currently serves as Academic Director of the Oxford Diploma in Global Business.
Marc's research and teaching focus on strategic management of global businesses, leadership of technology-intensive and digital businesses, the aviation industry, safety management, and business in China.

Dr Igor Calzada
Lecturer, Research Fellow, and Policy Adviser at the Urban Transformations ESRC Programme and Future of Cities Programme, Centre on Migration, Policy and Society (COMPAS)
Dr Calzada is an academic entrepreneur working in the field of innovative economic and geographic processes in cities and regions, with a focus on cases and issues of regional and metropolitan devolution and governance. In particular, he focuses on European City-Region and Smart City benchmarking case studies through the application of qualitative and action research methods.

Dr. Megan Price
Lecturer in Wadham College
Dr. Megan Price is the Doctor of Philosophy, Master of Arts, Master of Studies. Now she is Tutor for Archaeology of Sarah Lawrence Programme in Wadham College
She is responsible for seminars on:
The History of Oxford University
The Ashmolean Museum, Natural History Museum and Pitt Rivers Museum
British History from Ancient Britain to the 21st Century
Field visits to places of historic and archaeological interest.

08 | Requirements

Sound academic performance:

70 (on a 100 scale) at the minimum.

* Except Culture, Art and Society course, 1st-year undergraduates are required to be reviewed on the registration materials.

* 1st-year undergraduates from some partner universities do not need to submit academic results.

For more details, please ask your home institution.

English proficiency:

(1) IELTS: minimum 5.5 for overall average

(2) TOEFL: minimum 85 for the overall score

(3) College English Test (CET)-4: minimum 425 (applicable to Chinese university applicants only.)

(4) College English Test (CET)-6: minimum 500 (applicable to Chinese university applicants only)

* For those applicants who have not taken the above tests by the time of application, their English proficiency must be assessed through Tele-interview by a programme officer

* This requirement for proof of English proficiency is not required for applicants whose first language is English, those whose first language is not English but have successfully completed a full-time degree-level academic programme at a university where English is the language of instruction, or those who have extensive experience working in a professional English-speaking environment.

* The selection panel of the Course will consider the overall qualifications of each applicant.

Scholarships:

A limited level of scholarships (normally for university students) are available for those applicants who have competitive performance during the programme and in the home institution.

09 | Application

Registration Requirement:

Undergraduate and Postgraduate

Term One 26th January-8th February 2020

Term Two 1st February-14th February 2020

• APPLICATION PROCESS

For more information on the programme, please contact the International Office of your home institution, or email to apply@oxfordstudyabroad.org.uk.
